

# FORAGE PRODUCTS WITH YOUR LIVESTOCK IN MIND

## STANDARD CORN SILAGE

Pioneer® brand standard corn silage gives you the flexibility to feed out as high energy and high tonnage silage or to harvest as grain. Pair best-in-class hybrids with the world-class team of Pioneer agronomists and nutritionists to optimize your operation from seed to bunker.

- Proven Genetics with Reliable Agronomics
- High Starch Content
- High Biomass Yield

## BMR

If higher milk production is what you're after, there's no comparison. Pioneer® brand BMR corn silage offers outstanding fiber digestibility, which leads to higher feed consumption among high producing cows. It's high-quality silage for better cow performance.

- More Milk Production
- Higher Digestibility for Peak Performance
- Higher Feed Intake

## INOCULANTS

Make the most of your forage crops with Pioneer® brand inoculants. Designed to maximize forage performance, our crop-specific inoculants improve fermentation, aerobic stability and fiber digestibility.

## ALFALFA

Pioneer® brand alfalfa varieties are designed with top-quality forage in mind. Built with unrivaled agronomic packages to stand up against yield limiting pests and winter stress, the mix of traits delivers excellent forage yield and quality for your operation.

### HarvXtra® Technology

Pioneer® brand alfalfa varieties with HarvXtra®

and Roundup Ready® technologies contain less lignin in each plant, which boosts relative forage quality (RFQ) by 10 to 15 percent and delivers a higher energy forage ration. With strong agronomics to support the stand, our varieties offer a higher-quality hay at every cutting.

### Roundup Ready® Technology

Pioneer® brand Roundup Ready® alfalfa varieties help bring simplicity to your alfalfa weed management system. By

easily managing weeks during seedling establishment alfalfa plants grow vigorously and without weed competition, resulting in more pure alfalfa forage starting with the first harvest. Roundup Ready® alfalfa varieties give you the flexibility to control weeds all stand long.

## PLENISH® SOYBEANS

Home-grown Plenish® soybeans offer a high oleic fatty acid option

for dairies trying to maximize milk fat production as well as minimize off-farm feed costs. Multiple university studies as well as Pioneer on-farm studies show the inclusion of Plenish soybeans in certain dairy rations can lead to higher milk fat production and may be fed at higher inclusion levels than conventional soybeans without compromising overall production.

## ON FARM SUPPORT

Our team of forage experts are available for on-farm support all season. From selecting the right products for your specific acres, to optimum harvest and storage tips, Pioneer sales reps, agronomists and nutritionists are dedicated to your success.

**Do not export Pioneer® brand alfalfa seed or crops containing Roundup Ready® technology including hay or hay products to China pending import approval. In addition, due to the unique cropping practices, do not plant this product in Imperial County, California.** Purchase and use of HarvXtra® alfalfa with Roundup Ready® technology is subject to a Seed and Feed Use Agreement.

**Always Read and Follow Pesticide Label Directions.** Alfalfa with the Roundup Ready® technology provides crop safety for over-the-top applications of labeled glyphosate herbicides when applied according to label directions. Glyphosate agricultural herbicides will kill crops that are not tolerant to glyphosate. **ACCIDENTAL APPLICATION OF INCOMPATIBLE HERBICIDES TO THIS VARIETY COULD RESULT IN TOTAL CROP LOSS.**

HarvXtra® is a registered trademark of Forage Genetics International, LLC. HarvXtra® alfalfa with Roundup Ready® technology is enabled with Technology from Nobel Research Foundation Institute, LLC.

Roundup Ready® is a registered trademark of Bayer Group.

Plenish® high oleic soybeans for contract production only. Plenish® high oleic soybeans have an enhanced oil profile and are produced and channeled under contract to specific grain markets. Growers should refer to the Pioneer Product Use Guide on [www.pioneer.com/us/stewardship](http://www.pioneer.com/us/stewardship) for more information.
