

# RP NUTRIENTS

## Creating Generations of Healthy Cows

Together with our partners we are building a better agricultural environment through nutrition and technology. Our goal is to provide solutions for our customers to generate a more efficient, profitable herd for generations to come.

### BRINGING INNOVATIVE PRODUCTS TO MARKET

Established in 2008 with the vision to bring innovative and well-researched products to market, we prioritize research and effectiveness. Based in East Troy, WI, our sales team spans across the entire United States with deep relationships at all levels of the industry. We work with & alongside others to shape the agricultural world.

### Farm With a Purpose

Each of our products are designed with efficiency in mind. Our focus is to provide dairy nutrition solutions that optimize health while maximizing performance. We are the exclusive distributor for Evonik's Mepron®, an encapsulated rumen-stable source of methionine, and K-pron®, a hydrated potassium supplement. We have also created a collaboration agreement with Landus's SoyChlor® and SoyPlus®.

WE CARE ABOUT HEALTH, PRODUCTION AND REPRODUCTION

### Balance Your Herd & Improve Performance at Every Stage
